

QUICK CONFIGURE & DELIVERY PROGRAM

LIEBERT® EXM™ UPS 10-40 KVA/KW

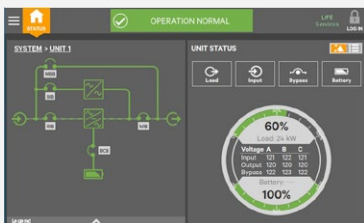

FEATURES

- 208 Volt, 3-Phase AC input
- Unity communications card with dual simultaneous protocols and environmental sensor support
 - Temperature
 - Humidity
 - Contact Closure
 - Leak detection
- Internal batteries
- 3-breaker Maintenance Bypass Cabinet (10kVA size can be ordered without it)

Liebert EXM UPS
10-40 kVA / kW

Liebert EXM UPS
10-40 kVA/kW with
Maintenance Bypass

The Liebert® EXM™ UPS is now available in Quick Configure SKUs that will be delivered within 4 days. Simply select the kVA size and battery run time required, and for 30kVA and 40kVA sizes you may also select a 480 volt input transformer if required.

4 DAYS
Config to Delivery

Quick Config and Delivery Option: Fast & Easy
Many 10-40kVA models available for delivery within the continental USA

Quick Configure and Delivery (QCD)

1. Select capacity (kVA)
2. Select battery runtime
3. Select voltage (30-40 kVA can accommodate 480V with input transformer)
4. Select Startup/Service preference

Easy to Use

- Contractor-friendly design enables faster installs
- Easy front service access
- Remote UPS and battery monitoring options
- LIFE™ and full complement of Liebert Services available

Efficient

- Market leading UPS efficiency
- Best in class footprint
- Unity power factor maximizes available capacity
- ENERGY STAR® Qualified

Touchscreen Control Panel

- Status At A Glance LED light bar
- Multiple access security levels
- User-customizable views
- Warning/alarm and event log
- Access key data points

See the available quick configure and deliver SKUs on the reverse side.
